

MAINTENANCE AND GENERAL INFORMATION FOR VINYL FLOORING

Thank you for selecting a quality vinyl floor-covering from our Builders Choice range.

Listed below are some helpful hints to enable you to get the best results when cleaning your vinyl and to retain its appearance.

- Sweeping vinyl instead of vacuuming, as this is a loose layed product.
- Sweep, dust, mop your floor often to remove loose dirt which can scratch your floor.
- Wipe up spills as soon as possible. Remove dried spills with a damp cloth or mop.
- Place a natural or colourfast mat outside entrances to collect tracked in dirt and absorb excess moisture. The manufacturer recommends mats without a rubber back since the backing can cause permanent discolouration.
- Rolling casters can damage the surface of the floor and, therefore, we do not recommend them. If you choose to use them, the double wheel types are the best option.
- When moving appliances and furniture, lay a plywood or hardboard panel on your floor and 'walk' the appliance across it. This protects your floor from scuffing and tears.

Please note:

MANUFACTURERS WARRANTY DOES NOT COVER:

- Damage caused by high-heeled shoes, household accidents, improper care or abuse.
- Bubbling and damage caused by moving white goods (eg fridges) and furniture.
- Loss of gloss from normal use.
